### **CIT RELAY & SWITCH Announces Immediate Availability of 40amp J115F3 Series Relay**

**Minneapolis, Minnesota** – *CIT RELAY & SWITCH* announces immediate availability of its J115F3 Series relay. Small in size, this light-weight, low cost relay is offered in panel mount style QC for both coil and contacts. The J115F3 Series exceeds industry UL standards – incorporating 40 amp contacts, 240VAC, 30amp@277VAC, and Class F insulation. This relay is available with contact arrangements of SPST N.O, SPST N.C., or SPDT. Options include standard 0.9 watt or reduced power consumption 0.6 watt coil and meet UL873 and UL508 spacing requirements. The J115 Series offers dielectric strength coil to contact of 2500V rms. Offering heavy contact load, strong shock and vibration resistance, the J115F3 has numerous coil voltage choices ranging from 3VDCD~110VDC; 12VAC~277VAC. The J115F3 Series is immersion cleanable with sealed cover option. Standard, RoHS environmentally friendly (no cadmium) contacts are AgSnO<sub>2</sub> or AgSnO<sub>2</sub>In<sub>2</sub>O<sub>3</sub> as an option for high in-rush current applications.

The J115F3 Series relay applications include computer and computer peripherals, telecommunications, security, test equipment, instrumentation, RV, medical applications, air conditioners, automotive, heating and ventilation, home appliance, motor control, and other industrial applications.

*CIT RELAY & SWITCH*, a division of Circuit Interruption Technology, Inc., manufactures a broad array of automotive, telecom, security, industrial and audio relays and switches in thru-hole, panel, and surface mount styles. *CIT RELAY & SWITCH* products are supported by a worldwide network of distributors and sales representatives who provide sales, service and delivery. For more information about the J115F3 Series Relays or any of the CIT relay line, contact *CIT RELAY & SWITCH*, 1152 Highway 10 NE, Minneapolis, MN 55432.
