## R (cont'd)

### Relays

|                            |                                                |
|----------------------------|------------------------------------------------|
| Automotive .....           | 426-429, 517, 698-699                          |
| Buzzer .....               | 500                                            |
| Circuit Board .....        | 497-499, 508-522, 526-532, 542-549             |
| .....                      | 567-573, 600, 602-605, 607-618, 625, 630-638   |
| .....                      | 657, 687-697, 703                              |
| Coaxial .....              | 595-596                                        |
| Contactors .....           | 383, 537-541, 588-589, 676-679                 |
| .....                      | 703-704                                        |
| Control .....              | 833-835, 845                                   |
| Cradle .....               | 392-393, 567-569, 646-651                      |
| Crystal Can .....          | 394                                            |
| DIP Package .....          | 384, 388-389, 401-404, 414-421                 |
| .....                      | 472-473, 493, 498-499, 528-529, 543            |
| .....                      | 559-561, 634-635, 657, 686                     |
| Flash Transfer .....       | 582                                            |
| General Purpose .....      | 500-502, 505, 518-519, 523                     |
| .....                      | 533-536, 550-558, 571-579, 606, 619-624        |
| .....                      | 626-629, 639-667, 700-702                      |
| Half-Size .....            | 394, 456-458, 462-463                          |
| Half-Size Latching .....   | 460-461                                        |
| High Performance .....     | 394, 446-467                                   |
| Impulse .....              | 680-681                                        |
| I/O Module .....           | 411-413, 494                                   |
| Latching .....             | 392, 416-423, 428-429, 460-461                 |
| .....                      | 464-465, 504, 510, 513, 523, 580, 636, 680-685 |
| Mercury Displacement ..... | 590-593                                        |

|                                 |                                                   |
|---------------------------------|---------------------------------------------------|
| Military .....                  | 394, 446-467                                      |
| Opto-Isolators .....            | 601                                               |
| PC Board .....                  | 384-392, 395-406, 410, 414-488, 497-499           |
| .....                           | 505, 508-522, 526-532, 542-549, 567-573, 600      |
| .....                           | 602-605, 607-618, 625, 630-638, 657, 687-697, 703 |
| Plug-In .....                   | 500-504, 533-536, 550-558, 571-582                |
| .....                           | 626-629, 639-665, 689, 700-701                    |
| Power .....                     | 502-504, 506-507, 516, 519, 522, 575-579          |
| .....                           | 583-594, 602-608, 614-615, 618-625, 637-638       |
| .....                           | 668-679, 687-699, 702-704                         |
| PhotoMOS .....                  | 430-445                                           |
| Power Modules .....             | 495-496                                           |
| Power PCB .....                 | 397-406, 424-429                                  |
| Reed .....                      | 384-391, 468-471, 497, 526-532                    |
| .....                           | 542-549, 559-566, 594, 657, 686                   |
| RF .....                        | 444-445, 549, 595-596                             |
| Safety .....                    | 407                                               |
| Sensor .....                    | 385                                               |
| SIP Package .....               | 384, 390-391, 474-475, 486-487                    |
| .....                           | 493-494, 530-531, 542, 544, 562, 657, 686         |
| Sockets & Accessories .....     | 393, 500-501, 505, 533-536                        |
| .....                           | 550-558, 650-651, 656, 664-665, 724-730, 736-738  |
| Solid State .....               | 393, 408-413, 476-494, 597-601, 686               |
| Steppers .....                  | 524-525, 581                                      |
| Surface Mount .....             | 386-387, 414-417, 454-455                         |
| .....                           | 476-485, 508-509, 532, 543, 617                   |
| Timer Delay – Also See “Timers” |                                                   |

## S

### Sensors

|                     |                                |
|---------------------|--------------------------------|
| Controls .....      | 850-851, 861, 878              |
| Current .....       | 855-856                        |
| Magnetic .....      | 836-843, 846-854               |
| Photoelectric ..... | 872-877                        |
| Proximity .....     | 831, 836-843, 846-849, 862-871 |
| Pressure .....      | 857-860                        |

### Sockets

|                        |                                         |
|------------------------|-----------------------------------------|
| Chip Carrier .....     | 731-732                                 |
| Sockets & Plugs .....  | 730                                     |
| Relay .....            | 500-501, 505, 533-536, 550-558, 650-651 |
| .....                  | 656, 664-665, 724-729, 736-738          |
| Automotive Relay ..... | 730                                     |
| Strips .....           | 733-735                                 |

### Solenoids

|               |                  |
|---------------|------------------|
| Frame .....   | 705-717          |
| Tubular ..... | 709-710, 718-723 |

### Switches

|                              |                                  |
|------------------------------|----------------------------------|
| Cam .....                    | 118                              |
| DIP .....                    | 32-33, 42, 170                   |
| Enclosed .....               | 150-156, 176, 180                |
| Explosion-Proof .....        | 155                              |
| Indicators .....             | 111-113, 115, 117, 158-165, 168  |
| Keyboard .....               | 78                               |
| Keylock .....                | 85, 114, 166, 186-189            |
| Key Switches .....           | 18-19, 46, 122-123, 171, 210-211 |
| Limit .....                  | 85, 173-176, 180                 |
| Miniature Pushbuttons .....  | 28-30, 44-45                     |
| Miniature Rocker .....       | 27                               |
| Mini-Slide .....             | 31-32                            |
| Mini-Toggle .....            | 24-26, 43-44, 100-110            |
| Non-Fusible Disconnect ..... | 10-11                            |
| Paddle .....                 | 60-62, 132                       |
| Power .....                  | 23                               |
