

# Q-Series Pushbutton Switches

Q-Series Pushbutton switches are designed for snap-in panel mounting.

**Approvals**

UL re3cognized; CSA approved; VDE approval pending. Load rating: 10A 125/250 VAC, 1/4 HP, 125 VAC; 10A 14VDC. Contacts: fine silver, double break. Circuits: single-pole and double-pole. Dielectric strength: 2000 VAC RMS. Life: 25,000 operations at maximum rating.

**Low Level Control**

For low level/dry circuit applications (<100 ma) contact factory for technical assistance.

**Terminals**

3/16" quick-connect brass with fine silver contacts (gold plating available).

**Mechanical Features**

Positive mechanical indication of switch contact position. 100,000 mechanical operations.

**Lamps**

Integral with switch; internally connected per diagram.

Incandescent Lamps — 6, 12 and 28 volt for use with any color lens window.

Neon Lamps — 125 and 250 volt standard orange for use with red, clear or amber caps. 125 and 250 volt special green for use with green or clear lens window.

LED's — 6 or 12 volt available in red or green color option: Red LED with red, clear or amber lens window; Green LED with clear or green lens window.

Note — LED polarity must be observed. (The positive terminal is marked on housing, terminal #3 or #4).

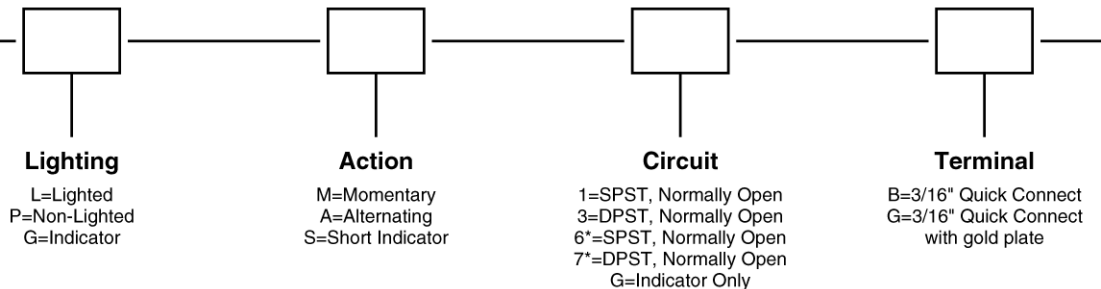

**Markings**

Letters, numbers and symbols can be laser etched or pad printed on the button. See back cover gatefold for details

Circuit	Switching	Circuit Diagram (Lighted)	Circuit Diagram (Non-Lighted)
1	Single-Pole Single-Throw Normally Open		
3	Double-Pole Single-Throw Normally Open	N/A	
6	Single-Pole Single-Throw Normally Open		N/A
7	Double-Pole Single-Throw Normally Open		N/A
0	G		N/A

Ordering Information:

**Q**

\*Green & Blue lenses require non-standard neon lamps for units with neon lamps.
