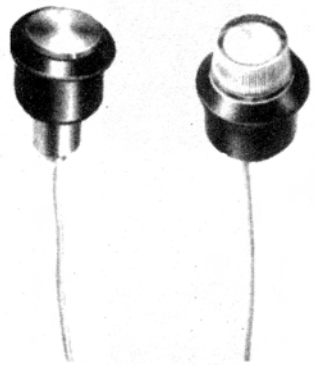
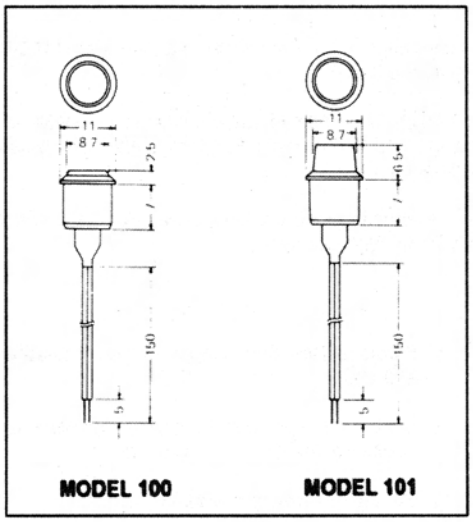
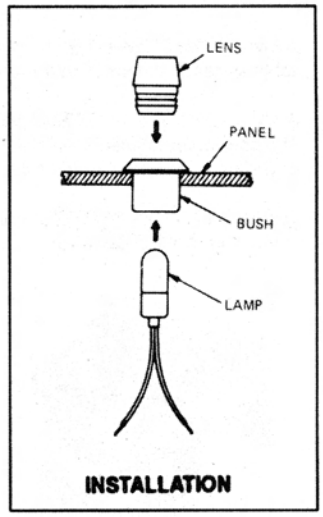
Models 100/101



MODEL 100 MODEL 101





Panel Hole: 9.0mm

Models 100/101 Indicator Light assemblies are a modular concept that provides low cost and great versatility. These lights mount by means of a rubber bushing snapped into a 9mm diameter panel cutout, without nuts or washers. A variety of light sources, Incandescent, Neon, Green Glow and LED's, fit into the bushing and a complete color selection of lens assemblies are slipped in from the top.

The 100/101 models offer a great advantage in that the lens assembly may be mounted independently from the light source and mated in the final assembly stage. Lens colors or light sources may be interchanged at any time.

LIGHT SOURCE

Lamp No.	Type	Voltage	Max. Current mA	Avg. Life Hours	Lead Colors
F606	Incandescent	5-6.3V	50	20,000	White/White
F614	Incandescent	12-14V	80	30,000	Red/White
F628	Incandescent	24-28V	40	30,000	Brown/White
G5115	Green Glow	100-120VAC	1.5	10,000	Green/Green
G5240	Green Glow	220-240VAC	1.5	10,000	Blue/Blue
L617GL	Green LED	1.9 TYP	10	---	Red - Anode
L617RL	Red LED	2.0 TYP	10	---	Black - Cathode
L617YL	Yellow LED	1.9 TYP	10	---	
N5115	Neon	100-120VAC	1.5	10,000	Gray/Gray
N5240	Neon	220-240VAC	1.5	10.000	Blue/Blue

6" wire leads are standard on the above light sources, other lead lengths are available on special order.
