- TYPICAL 20-YEAR LIFE WITH LITHIUM BATTERY, NO EXTERNAL POWER REQUIRED. MOUNT ANYWHERE!
- .315 INCH (8 MM) FIGURE HEIGHT
- PANEL OPENING: 1.79 X .89 INCHES (45 X 22.2 MM)

COUNTERS, HOURLMETERS, AND TACHOMETERS.

Redington's new "Eagle" family of digital electronic counters, hourmeters, and tachometers use innovative technology to provide unparalleled accuracy and reliability over a wide range of applications. Due to the many design options available, "Eagle" represents the ultimate in practicality and flexibility. "Eagle" can be specified in two ways: with terminal block or connector with wire leads. Installation is simple using the positive-locking mounting clip provided. An optional gasket provides reliable washdown protection. All devices are UL Recognized and CSA Certified. And, because all Redington "Eagle" counters, hourmeters, and tachometers are U.S. made, availability, service, and reliable performance are assured. "Eagle" is priced competitively too, so you won't pay a premium for the latest technology.

PCB MOUNT

DIGITAL HOURLMETER, COUNTER AND TACHOMETER MODULE

FEATURES

- **Power:** Available with or without lithium battery (3.2 VDC power source required)
 - **Mounting:** Pin terminations for mounting the module to a PCB
- Other specifications are similar to the rest of the "Eagle" family. Data sheet and ordering information available upon request.
