

SFR

Features

- Manual insert, magnetic stripe, and IC card reader: Ideal for ATM, POS, telephone, vending, and gas pump
- Reads 100% of magnetic stripe
- IC card read/write according to ISO 7816
- Single, double or triple track configuration available
- Solenoid locking mechanism for IC card type
- Compact construction
- TTL interface

24

CARD READERS

Characteristic Data

Power consumption 70mA @ 5 VDC

Service life 300,000 passes minimum (roundtrip)

Card feed speed 10 to 100 cm/sec.

Operating temperature -10°C to +55°C
