MOTOR PROTECTION CIRCUIT BREAKERS

PRODUCT PROFILE

ATC Diversified's **Motor Protection Circuit Breakers** provide reliable overload and short circuit protection and are ideal for use in group motor installations—providing space, labor and cost savings. For the simplest applications, they can also be used by themselves as manual motor controllers.

DELIVERING SUPERIOR PRODUCT QUALITY AND MANUFACTURING EXCELLENCE

√ Proven	Our Motor Protection Circuit Breakers are UL Listed and CE marked meeting global standards requirements.
√ Compact	Only 45mm (1-49/64") wide up to 20HP @ 460V (15kW @ 400V) in both thermal and magnetic and magnetic only versions.
Added Safety	IP20 guarded terminals with dual terminal markings prevent accidental contact with live parts.
Full Line of Accessories	Including side-mounted auxiliary contacts for motor protection circuit breakers. Snap-on accessories are easily installed without the use of tools.
✓ Modular Design	Modular design allows ATC Motor Protection Circuit Breakers to be easily used with the complete range of CON Series Contactors and accessories.
✓ Easy to Install	35mm DIN rail mounting for fast and easy installation and removal, or panel mounting with mounting feet for more secure installation in high shock and vibration applications.
√ Visible Markings	High visibility labels and markings; dual IEC and NEMA terminal markings for ease of wiring anywhere in the world.
√ Space Savings	Control panel sizes can be reduced because the short circuit protection provided by the ATC MPCBs enables individual motor branch circuit fuses or circuit breakers and overload relays to be eliminated.

	МРВ	Т
Adjustment Range		
1.6 - 2.5 Ampere	2R5	
2.5 - 4.0 Ampere	4	
4.0 - 6.3 Ampere	6R3	
6.3 - 10 Ampere	10	
10 - 16 Ampere	16	
16 - 20 Ampere	20	
20 - 25 Ampere	25

UNIQUE PRODUCT LINE FEATURES

Multi-Function Device

Our MPCBs are certified as Manual Motor Controllers
 Suitable as Motor Disconnects, can be used in Group Motor
 Installations, and can be used to manually control individual
 motors and protect them against overload and short circuit
 currents.

High Fault SCCR

 High fault short circuit current rating of 50kA @ 480V provides safety and reliability in high fault applications.

Seamless Compatibility

 The modular design of our MPCBs allow for direct mounting onto CON Series (9A to 40A) AC/DC Contactors.

Adjustable Current Setting

 Full load current adjustment ratio enables overload relay to be set to exact FLA of motor. Provides phase protection for the motor against overload currents.

Snap-On Accessories

 Snap-on accessories are easily installed without the use of tools, lowering assembly and installation costs.
