DIN Rail Mounted Enclosures *1597DIN Series*

Key Features:

- Ideally suited for housing electronics for DIN rail-mounted devices. Applications include:
  - Industrial drives and controls
  - Automation
  - HVAC
  - IoT
- Mounts to standard symmetrical 35 mm DIN rail
- Dark gray mounting base molded from PPE & PS
- Light gray main enclosure body molded from polycarbonate
- Material carries a flammability rating of UL94-V0
- Designed to meet IP20
- Snap closures for easy assembly, no hardware required
- 5 models available
- 4 types of covers sold individually for use in a wide variety of applications
- **Some chemicals can damage or weaken plastic. Please read our Chemical Resistance Statement under Downloads for more information.**
