Rack Screw & Clip Nut Hardware Kit *CLPKIT Series*

Complete rack mounting hardware kit with 10-32 rack screws and clip nuts for non-threaded round-hole and square-hole rack rails.

NEW SIZES

TAA COMPLIANT

RoHS

Key Features and Benefits

- Complete 10-32 mounting hardware kit includes equal quantities of rack screws and clip nuts, providing everything needed to install equipment on non-threaded rack rails.
- Includes black 10-32 , 0.625” length rack screws with captive nylon washers to protect painted rack rails and equipment faceplates during installation.
- Includes zinc-plated 10-32 clip nuts that quickly snap onto non-threaded round-hole rack rails to create secure threaded mounting points.
- Eliminates the need to purchase screws and clip nuts separately, simplifying ordering and reducing installation delays.
- Available in 10, 25, 50, and 100-piece kits to support everything from small installations to large deployments.
- Plastic jar packaging keeps hardware organized for installers, maintenance departments, and service vehicles, while smaller quantities are available in a clamshell package.
- Also available as an 8-32 top and bottom panel hardware kit for compatible Hammond rack accessories.
- Ideal for telecommunications, networking, industrial automation, AV, and OEM installations.
- RoHS and REACH compliant.

The CLPKIT Series provides a complete rack mounting hardware solution for equipment installed on non-threaded rack rails. Each kit contains equal quantities of 10-32 rack screws with captive nylon washers and matching clip nuts, eliminating the need to source individual hardware components. The clip nuts quickly snap onto non-threaded round-hole rack rails to create secure threaded mounting points for rack-mounted equipment.

Whether you're installing network switches, patch panels, cable managers, shelves, or AV equipment, the CLPKIT Series helps speed installation while ensuring you always have the correct mounting hardware. Available in multiple package sizes, it's an excellent choice for installers, OEMs, maintenance departments, and service technicians who regularly work with non-threaded rack systems.

When Another Product May Be a Better Choice

- When you're installing equipment in standard square-hole rack rails, choose the **CAGKIT** Series, which includes cage nuts instead of clip nuts.
- When you only need replacement clip nuts, choose the **1421N** Series Clip Nuts.
- When you only need replacement rack screws, choose the **SCREW** Series Rack Mounting Screws.

10-32 Rack Mounting Hardware

Part No.	Qty Included	Clip Nuts	Rack Screws	Package Type
CLPKIT1032-10	10 of each	Zinc plated clip nuts	Black Screws with installed nylon washers	Clam Shell
CLPKIT1032-25	25 of each	Zinc plated clip nuts	Black Screws with installed nylon washers	Plastic Jar
CLPKIT1032-50	50 of each	Zinc plated clip nuts	Black Screws with installed nylon washers	Plastic Jar
CLPKIT1032-100	100 of each	Zinc plated clip nuts	Black Screws with installed nylon washers	Plastic Jar

8-32 Top & Bottom Panel Hardware Kit

Part No.	Qty Included	Clip Nuts	Rack Screws	Package Type
CLPKIT832-6	6 of each	Black oxide clip nuts	Zinc plated Screws	Poly Bag

Where the CLPKIT Series Works Best

- Equipment racks with non-threaded round-hole rails.
- Telecommunications and networking installations.
- Industrial control and automation cabinets.
- AV equipment racks and broadcast installations.
- Maintenance departments and installer service kits.
- OEM production and rack assembly.

Best Applications

- Installing switches, patch panels, and cable managers.
- Mounting equipment on non-threaded rack rails.
- Stocking complete rack hardware for service calls.
- Equipment upgrades, moves, adds, and changes.
- Replacing missing mounting hardware during maintenance.
