Lifting Eye Bolt Kit *HDMELB Series*

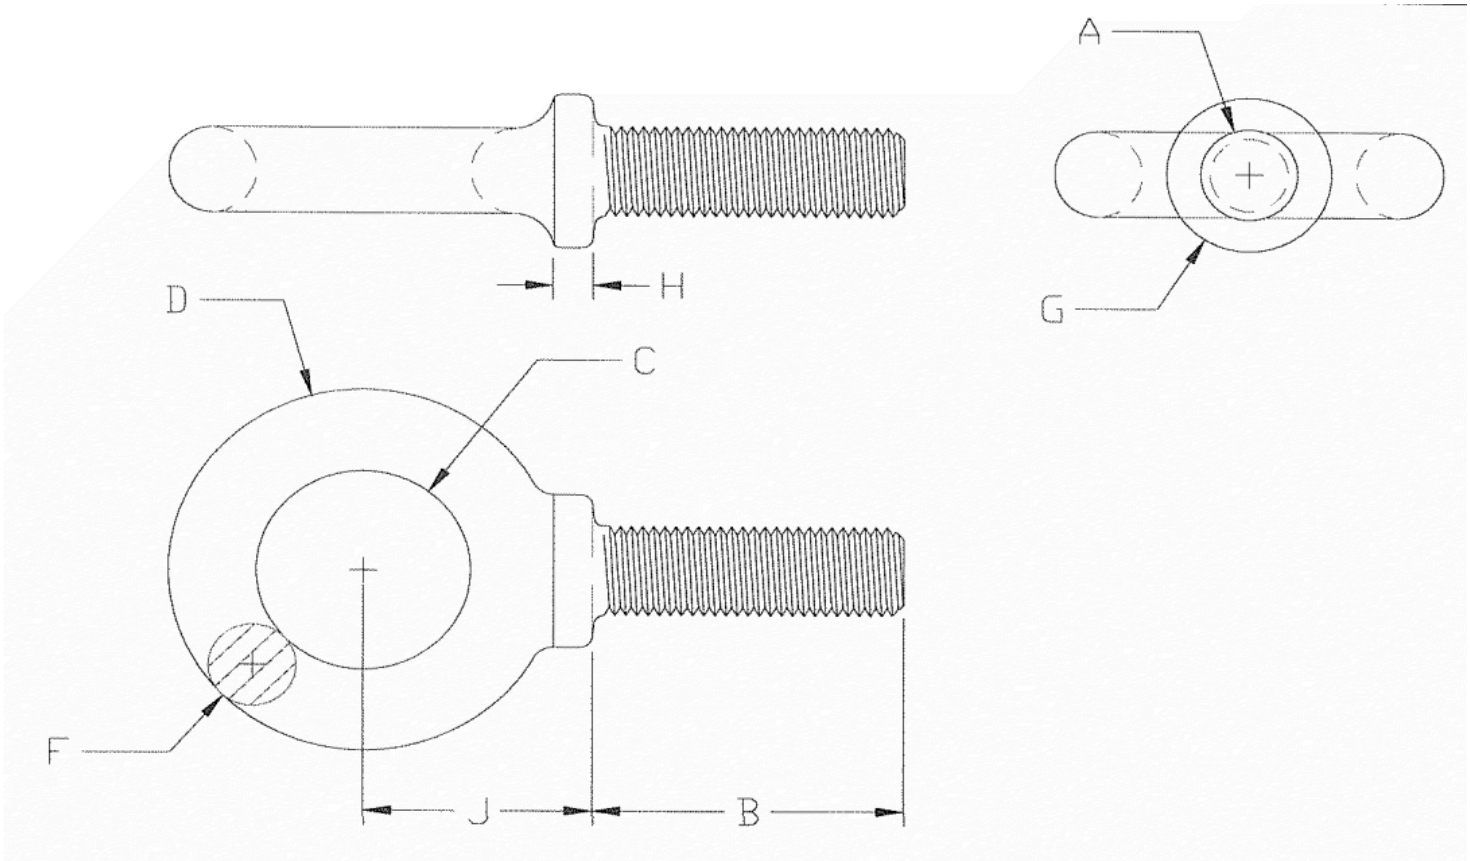

Heavy-duty lifting eye bolt kit designed for safe handling and positioning of Hammond cabinets.

Features

- Constructed of C1030/C1035 Carbon Steel.
- Helps simplify enclosure transport, positioning, and installation in industrial environments.
- Supports safer lifting practices when moving large modular enclosure systems.
- Sold in packs of four (4) for complete enclosure lifting support.
- Mounts to the front rails and rests against the body of the cabinet or rack.
- ASTM B633 Zinc-plated finished, FE/Zn 5, Type III.
- 2,400 lbs (1,088.62 kg) load rating.
- RoHS Compliant.
