

## Rack Mount Desk Fixed Writing Shelf *RMD Series*

Convenient rack-mounted work surface for writing, configuring equipment, or supporting portable devices during installation and maintenance.

### Key Features and Benefits

- 16-gauge steel construction supports up to 100 lb (45 kg), providing a durable work surface for writing, laptops, test equipment, keyboards, and other portable devices.
- Occupies just 1U of rack space, creating a convenient workstation without sacrificing valuable rack capacity.
- Mounts directly to the front rack rails and rests against the rack or cabinet frame for added stability during everyday use.
- Ideal as a writing desk, temporary laptop platform, keyboard shelf, or instrument support during equipment installation, commissioning, and maintenance.
- Compatible with standard 19-inch EIA-310-E racks and cabinets for universal installation.
- Available in RAL 9005 black or RAL 7035 light gray to match a variety of rack environments.
- Simple fixed design provides a reliable work surface with no moving parts, minimizing maintenance while maximizing durability.
- Manufactured in North America, ensuring consistent quality, materials, and production standards.
- TAA-compliant, manufactured in North America within an ISO 9001 certified facility.
- Powder coat finish (GREENGUARD Gold Certified, TSCA, and RoHS compliant) provides a durable, environmentally responsible finish.

The RMD Series Rack Mount Desk transforms unused rack space into a convenient workstation for installation, configuration, and maintenance tasks. Whether used as a writing surface, keyboard shelf, laptop platform, or support for portable test equipment, the RMD provides technicians with a stable work area exactly where they need it.

Constructed from durable 16-gauge steel with a 100 lb load capacity, the RMD installs in just 1U of rack space and mounts directly to standard 19-inch EIA-310-E rack rails. Manufactured in North America, it offers a simple, dependable solution for data centers, telecommunications rooms, industrial facilities, and AV installations where having a dedicated work surface improves productivity.
