Hinged Solid Rack Security Door *RSDP Series*

Lockable hinged rack door designed to secure multiple rack units while maintaining full access to equipment.

Key Features and Benefits

- 16-gauge steel construction provides durable protection for rack-mounted equipment across multiple rack units.
- Hinged door design allows full access to equipment when open, improving serviceability and maintenance.
- Installs directly to standard 19-inch EIA rack rails for universal compatibility.
- Integrated lock with two keys prevents unauthorized access and tampering.
- Covers multiple rack units (6U–16U options), allowing protection of entire equipment sections.
- Folded steel construction improves rigidity and durability.
- Available in black (RAL9005) or light gray (RAL7035) powder coat finishes.
- Ideal for securing equipment mounted on shelves or open racks.
- TAA-compliant, manufactured in North America within an ISO 9001 certified facility.
- Powder coat finish (GREENGUARD, TSCA, RoHS compliant) supports environmental and durability requirements.

The RSDP Series rack mounting hinged security doors provide a scalable solution for protecting rack-mounted equipment across multiple rack units. Designed to mount directly to rack rails, they create a secure barrier while allowing full access when opened. With integrated locking and durable steel construction, the RSDP Series is ideal for securing equipment in shared environments, telecom rooms, and open rack installations.

Where the RSDP Series Works Best

- Data centers and server rooms
- Telecom and network installations
- Open frame rack environments
- Shared or multi-user rack deployments
- Installations requiring section-level security

Best Applications for the RSDP Series

- Securing multiple rack units of equipment
- Protecting devices mounted on shelves or open racks
- Preventing unauthorized access or tampering
- Creating lockable rack sections without full enclosures
- Improving security in shared rack environments
