

WATERTIGHT PULL THROUGH WIREWAY, GASKET POURED-IN-PLACE

The 1412 series is a complete water tight wireway system, which is used indoor or outdoors, in areas where the wireway may be subjected to hosing or water coming from any direction.

CSA Certified / UL Listed
NEMA/EEMAC 4-12 / IP66

Technical specifications:

- Troughs are bolt-on and are made of high quality code gauge steel, with welded end flanges.
- All seams have been continuously welded.
- Covers are hinged and secure closing is assured by several, quick-release, ¼ turn locks.
- A high quality, poured-in-

place, seamless gasket is installed between the door and trough, and between the sections and accessories to ensure integrity.

- Components are finished with heat fused powder paint, electrostatically applied on a pretreated base.
- Finish is ANSI/ASA 61 smooth gray.
