

WEATHERPROOF BOX WITH VENTILATION SYSTEM

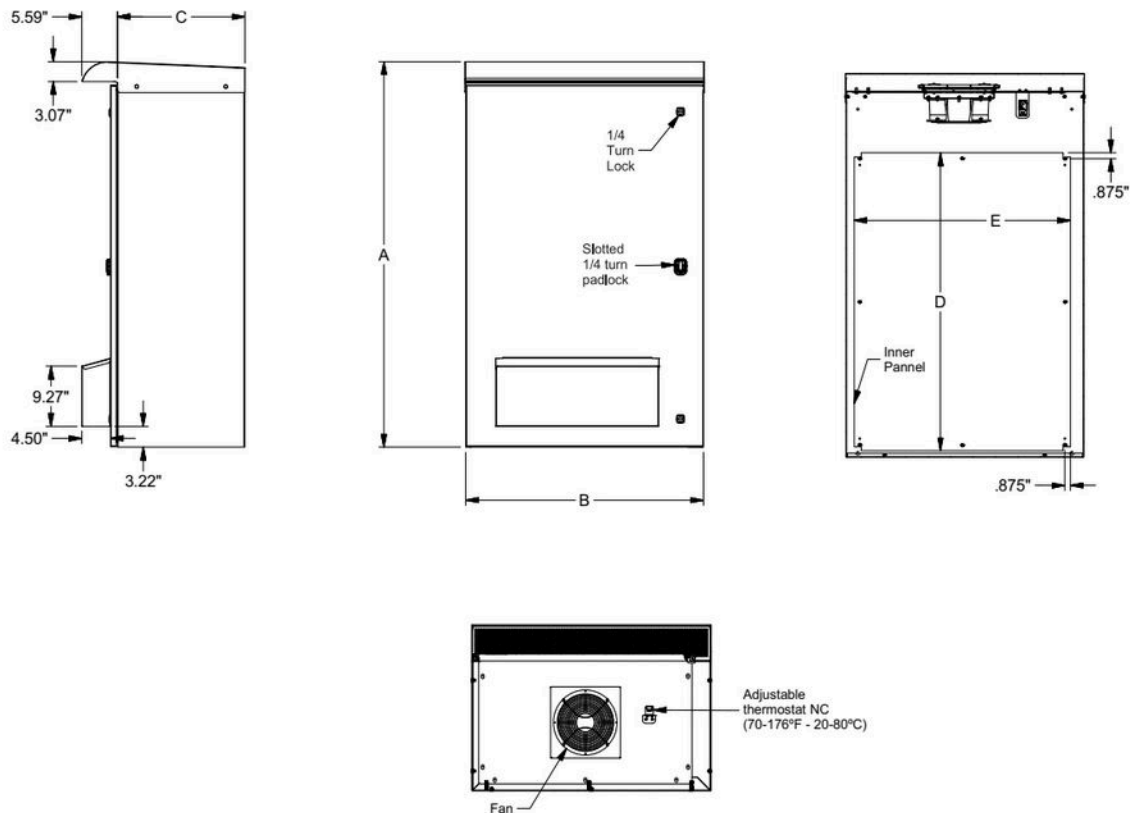

The **5300 EWB** large single door weatherproof enclosures are used as junction boxes or control boxes in outdoor installations or indoors where dripping water is a problem.

NEMA 3R / IP32

Technical specifications:

- Made from quality galvanized steel.
- The integrated drip shield limits the intrusion of water.
- Curled lip around all sides to prevent dripping water from entering the enclosure when the door is open, it also increases rigidity.
- A high quality robotically poured-in-place seamless gasket ensures a durable weathertight seal.
- The pins of the concealed hinges can be pulled out to remove the door.
- A ¼ turn locking mechanism ensures positive closing.
- Optional 12 GA galvanized inner panel which is double bent* for maximum rigidity and which mounts on M8 welded studs is available.
- Enclosures are finished with heat fused powder paint, electrostatically applied on a pretreated base.
- Box is RAL 9003 textured white.
