# Single Slide terminal Blocks

The single side, or return terminal blocks as they are sometimes called, provide for the circuit connections located on the same side of the terminal block. This unique single-side wire entry and exit design allows the installer to place the terminal blocks up against the panel or enclosure wall while still providing easy access to the wiring points.

The ASIUK5RETURN terminal block is constructed with UL94V0 housings, nickel-plated copper alloy metal bodies and accepts a wide range of accessories.

Terminal Width   6.2mm

ASIUK5RETURN

Specifications			
Wire range, AWG	10-30		
Current Rating	30		
Voltage Rating	300		
Dimensions (L x H) mm	46.8 x 57.5
