PCB for DIN Rail Mount Multi-Board Box

- Designed to fit circuit board location 'A' of the DIN Rail Mount Multi-Board boxes
- 0.1" hole spacing designed to accommodate a variety of components for prototyping
- Pre-plated holes for easy soldering
- Available in five sizes
- Terminals can be used in multiples of three

Catalog No.	No. of PCB Terminals	External Dimensions (inches)			Weight (Oz.)	Box (not supplied)
		W	L	T

DMB-4770-T3	6 (2×3)				0.3	

DIN Rail

DIN rails are compatible with any industrial or commercial electrical enclosures that use 35mm DIN rail mounting.

- 1mm thick zinc plated steel
- Complies with EN 60715 standard
- 18mm × 6.3mm oblong slots spaced at 25mm center to center provide flexibility in mounting
- Accepts all types of 35mm DIN rail mountable components and devices
- Suitable for mounting all Bud DIN rail mount boxes and accessories: DB, DPB, DMB and TS-16 series
- Sold and shipped in packages of 10

DIN Rail Mounting Clip

This easy-to-install clip allows mounting of small enclosures and other devices that do not have a built-in DIN rail mounting flange to a 35mm DIN rail.

- Clip allows a variety of boxes not having an integral DIN rail mounting bracket to mount on a 35mm DIN rail
- Easy to install (requires drilling of one 4.3mm diameter hole in the mounting surface)
- NEMA-rated boxes may need sealing washer to maintain NEMA rating
- 0.8mm thick plated steel
- Shipped in a plastic bag consisting of one clip, one M4 × 8mm machine screw and one M5 lock washer
- PLEASE NOTE: larger boxes may require the use of two clips
