CIT Relay and Switch introduces the WJ102  
Sub-miniature DIP relay

**Maple Grove, Minnesota** – CIT RELAY offers subminiature, DIP relay. The WJ102 provides high sensitivity switching with the .15 Watt coil option. This small, lightweight relay is a perfect fit for high density PC boards. The WJ102 with its gold plated, bifurcated contacts provides designers with reliable switching in a low cost relay. The WJ102, and all CIT Relay & Switch products, are manufactured and quality controlled to ISO-9002 and QS-9000 standards. Standard lead time is 8 to 9 weeks ARO. (\$0.67ea / 1,000 pcs. available now)

CIT Relay & Switch, a division of Circuit Interruption Technology, Inc., manufactures a broad array of automotive, telecom, security, industrial and audio relays and switches in thru-hole and surface mount styles. CIT Relay & Switch products are supported by a network of distributors and sales representatives who provide sales, service and delivery. For more information about the new WJ102 relay, contact CIT Relay & Switch, 7003 Magda Drive, Maple Grove, MN 55369. Phone: 763-535-2339, Fax: 763-535-2194, E-Mail: [sales@citrelay.com](mailto:sales@citrelay.com), Website: [www.citrelay.com](http://www.citrelay.com)

*Dedication makes the difference*
