FOR IMMEDIATE RELEASE

CIT RELAY & SWITCH BSR Series RoHS Sub-Miniature Sealed Rocker Switch

Maple Grove, Minnesota – The UL listed BSR Series addition to the broad line of switch product offered by *CIT RELAY & SWITCH* offers electrical ratings from 0.4VA for dry circuit applications to 3A for power applications in both SPDT and DPDT. Offering two actuator options in numerous colors and four switch functions, the versatile BSR Series sub-miniature sealed rocker switch is ideal for use in computers and computer peripherals, telecommunications, security, test equipment, instrumentation and medical applications. The BSR is available with silver plated, gold plated and gold over silver plated contacts with termination options including standard PC in, horizontal mount or vertical mount right angle PC pin, and PC pin with support bracket. The case and bushing are made of UL 94VO flame retardant material.

Lead-time is 5 to 6 weeks. Pricing starts at 1.50 per 5,000 pieces.

CIT RELAY & SWITCH, a division of Circuit Interruption Technology, Inc., manufactures a broad array of automotive, telecom, security, industrial and audio relays and switches in thru-hole, panel, and surface mount styles. *CIT RELAY & SWITCH* products are supported by a worldwide network of distributors and sales representatives who provide sales, service and delivery. For more information about the new BSR Series rocker switch or any of the CIT switch line, contact *CIT RELAY & SWITCH*, 7003 Magda Drive, Maple Grove, MN 55369.
