

Contura® VP-Series Illuminated Indicators

Carling Technologies is pleased to introduce the latest additions to the hugely successful Contura product line -

the all new Contura V and Contura X style

Illuminated Indicators. These new offerings were directly driven by customer demand for an indicator light which complements the Oval shape of the Contura V rocker as well as the Rectangular outline of the Contura X switch. Both products combine the cutting edge Contura aesthetics along with the reliability and performance that are the hallmark of Carling Technologies.

Key Features and Benefits Include:

- Full size Oval or Rectangular lenses, available in single or double lens styles
- Optional two-piece lens with cover to protect the integrity of printed legends
- Over 500 available lens and body legends
- Neon, Incandescent and 100K hr life Led illumination choices
- Optional one-piece polarized connector for installation ease
- Fits industry standard 21.08 X 36.83 mm panel opening
- Removable/Replaceable lamp module of Contura V style affords the ultimate in design flexibility
- Flush or Raised style bezels to accommodate sealing requirements

As a critical safety feature, the illumination alerts the operator of essential system functions or malfunctions such as: Oil Pressure, High Temperature, Transmission or other fluid levels, Parking Brake or General System confirmations. The three different styles (Contura, Contura V and Contura X) assure seamless integration into most any dashboard panel to meet the needs of today's Off Highway, Heavy Vehicle, Marine, Appliance and Industrial Control markets.

Samples are immediately available.

Production parts are available subject to a 4-5 week ARO leadtime.
