

# Flat Rocker Actuator

## A, B & C-Series Circuit Breakers

*Carling Technologies' A, B & C-Series Hydraulic/Magnetic circuit breakers, well known in the industry for their proven reliability, small size and applied versatility, are now available with a new actuator style: The Flat Rocker.*

These exciting new actuator styles reduce the chance of inadvertent actuation or turnoff of the breaker, while also offering great aesthetic appearance.

The "Flat Rocker" is available on products with literally thousands of options relative to voltage, current, interrupt capacity, delay times, terminal options, auxiliary switches and tripping characteristics. Approvals include various levels of UL listing and recognition, TUV, CSA, and are in compliance with all relevant CE directives.

**Product Availability:** A, B & C-Series samples & production quantities are now available.

**Ordering Specifics:** To order the Flat Rocker, refer to the relevant Ordering Scheme in our Circuit Protection 404 catalog:  
A-Series: pages 44-45; B-Series: page 65; C-Series: pages 85-86

Carling Technologies is one of the world's largest manufacturers of Hydraulic Magnetic and Thermal Circuit Breakers, Electrical Switches and Assemblies, and Advanced Systems including Power Distribution Centers, Digital Switching Systems, and Electronic Controls. Carling products are used worldwide in diverse industries including Appliance, Electronics/ Telecom, Medical, Transportation, Industrial Controls & Factory Automation, and Commercial Facilities Control. A world leader in the markets it serves, Carling is committed to making continuous improvement in every product and service it offers, and to providing outstanding world-class customer service. Contact us for more information on our new Flat Rocker, and the complete line of Carling products.

**Carling Technologies™**  
Innovative Designs. Powerful Solutions.
