

PRODUCT UPDATE

New IDEC SmartRelay Modules

- *Base module updates:*
FL1B-H12RCA and **FL1B-B12RCA**
now have 24V AC/DC input voltage
- *New Expansion I/O Module:*
FL1B-M08D2R2, 24V AC/DC
List Price: \$70.00
- *Questions or concerns?*

IDEC Corporation announces the latest updates to the IDEC SmartRelay series. Two of the base modules have been upgraded, and we have also introduced an additional expansion module.

The FL1B-H12RCA and FL1B-B12RCA base modules, both with and without integrated LCD screens, have been upgraded to a rated voltage of 24V AC/DC. Previously, these modules had a rated voltage of 24V AC, and a PNP input. These base modules have also been upgraded to accept either NPN/PNP inputs.

The new expansion I/O module (FL1B-M08D2R2) has 4 NPN/PNP inputs and 4 relay outputs. It also features an input voltage of 24V AC/DC.

Contact IDEC Technical Support for more information or to receive additional documentation on the IDEC SmartRelay series.
