- PS Family Brochure: **PS03**
- **See part numbers and list pricing on reverse.**

## PS5R Slim Line Power Supplies

IDEC Corporation is very happy to announce the release of the PS5R Slim Line power supplies. These new models give you all the power of a traditional power supply in only half the space, with all the convenient features you've come to expect from IDEC's top-selling power supplies.

The 30W model is available in 12V DC or 24V DC output models. The 60W and 90W are both 24V DC output. All PS5R Slim Line models are UL508 and UL1604 listed for hazardous locations. The 30W and 60W models are also Class 2 rated.

Like all IDEC switching power supplies, the PS5R Slim Line series has worldwide approvals, fused inputs, and overload

protection. They are DIN Rail or direct surface mountable and have universal voltage inputs. No derating means you can save money, space, and time. IDEC quality means you get the power you need, just the way you need it.

See part numbers and list pricing on reverse. For dimensions, specifications, and accessories for the PS5R Slim Line series, see the new PS Family brochure, catalog #PS03. This updated brochure also includes information about the classic PS5R series and other IDEC power supplies.
