

Kycon Adds Vertical Mount Stereo Jacks

San Jose, CA – Kycon turns up the volume on its stereo jack family product offerings with the addition of a 3.5mm diameter vertical mount series - the STX-3680 and STX-3790. The series was developed to meet the accelerated market needs for higher performance in

such applications such as car audio and navigation equipment.

Both the STX-3680 and STX-3790 series, which complies with EIA standards, are offered as a 5-pin jack, while the STX-3680 is also available in a 6-pin option. Both series are available in select PC99 color options and with a PBT thermoplastic body, UL94V-0 rated. The entire line offers reliability from the quality control that Kycon imposes on all of their products, and the end-user will hear the difference in the long-run.

Kycon is committed to excellence in products and service. While continually broadening their product line, including customized solutions, Kycon maintains clear focus on quality, while upholding world-class service and support that has consistently earned them Bishop's top-rankings for customer satisfaction.
