

NO: SW-046  
DATE: May 2005

PRODUCT: B3M Tactile Switches  
TYPE: Modification Notice

## B3M-6009 Tactile Switch Will Change Terminal Shape and Country of Origin Effective September 2005

The production location of the B3M-6009 switch is moving from Japan to China. Effective September 1, 2005, all orders will be sent to that facility, with production commencing on that date. To reflect this change in Country of Origin (C.O.O.), the packing label will display "Made in China." No change in pricing is expected.

The shape of the PCB terminal will change due to new tooling being installed at the OMZ factory. See the dimensional comparison below.
